JAP ARMY ADVANCES

OYAMA'S FORCES MARCHING TO
ATTACK THE RUSSIANS UNDER
LINEVITCH.

MAY BE FORCED TO RETIRE

CZAR'S SOLDIERS WILL IN ALL
PROBABILITY BE COMPELLED
TO BEAT A RETREAT.

London, April 7.—The correspondent at St. Petersburg of the Times telegraphs:

"The latest official information leads to the belief that the Japanese are advancing in crescent formation, Oku on the left, Nodzu on the center and Kuroki and Kawamura on the right, and with a total strength of 475,000. It is feared that Linevitch will be compelled to withdraw."

REPORTS OF WOUNDED SLAVS.

Describe Conditions Around Mukden After the Battle.

St. Petersburg, April 7.—Invalid Russians who left Mukden on March 26 report that the Hun river bridge had not then been restored. The Japanese in removing Russian wounded from Mukden carried them as far as the railroad in bamboo litters and entrained them on the farther side.

Chinese, it is stated by these returned soldiers, partly pillaged the hospitals in Mukden on March 10, before the arrival of the Japanese, but did not harm the wounded or attendants and acted most humanely toward Russian wounded on the field, assisting the Japanese to remove them.

Russian medical army officers recognize in the adjutant of General Oku's fifth division, a former professor of languages in the seminary of Vladivostok. They also met other Japanese officers who formerly were in the Russian service in Manchuria.

The returned soldiers describe the confusion in the evacuation of Mukden and the fighting in narrow streets and at the gates, where Japanese and Chinese ambushed the last detachments and where General Gafeldt was wounded and captured.

Japs Lost Heavily.

The losses of the Japanese, according to foreigners, accompanying them, was nearly 100,000. The Eighth division, for instance, although losing over 7,000, was not considered one of the heavy sufferers. The greatest losses were in the troops operating against General Linevitch, where the struggle was longer and fiercer than elsewhere. The Japanese placed the number of guns captured during the retreat at twenty-six, and also captured thousands of abandoned rifles and immense quantities of boxed rifle ammunition. According to Chinese the Japanese are now rearming their reserves with Russian rifles.

The Japanese army is healthy, excellently clothed and well shod, and its morale is excellent, according to these soldiers.

Japanese officers admitted that they concentrated every last effort to win the battle and threw their entire reserves into the fighting line, leaving the rear communications entirely unprotected. They realized that had the Russians thrown a heavy force of cavalry in the rear, their position would have been critical, but they counted rightly on Russian inertia and were confident of victory.

RUSSIANS WANT A REPUBLIC.

Revolutionary Party Would Establish One on Ruins of the Autocracy.

Moscow, April 7.—The central committee of the revolutionary party has drawn up a document containing the main points of its programme and of this hundreds of thousands of copies are being printed for circulation in all parts of European Russia. The first and main point of the programme is the establishment of a democratic republic on the ruins of the autocracy and besides the usual points of social democratic doctrine it includes many arguments especially directed to Russian conditions and designed to appeal to the self-interest of the Russian proletariat, both agricultural and industrial. It voices phrases familiar to the American ear, such as "initiative and referendum," public ownership of public utilities, etc.

Fatal Collision of Trains.

Bethesda, O., April 7.—In a head-on collision at night between an east-bound passenger train and a west-bound freight on the Baltimore and Ohio, Engineer Atherton of the passenger train was killed, two trainmen were badly injured and several passengers hurt.

No danger of consumption if you use Foley's Honey and Tar to cure that stubborn cough.

KING EDWARD IN PARIS.

British Ruler Holds Long Conversation With French President.

Paris, April 7.—The arrival of King Edward in Paris during the day was the occasion for a notable manifestation of Anglo-French cordiality, which is being interpreted as a general response to Germany's position towards Morocco. The king was met outside the city by President Loubet, who held a private conversation with his majesty, lasting nearly an hour. The details of the conversation excited a wide range of speculation, but its actual purport has not been disclosed. However, a semi-official communication recites that the meeting had far less reserve than that between King Edward and President Loubet last year and that it was marked by the freedom of the confidences exchanged.

Beyond this private conversation, King Edward confined himself to the usual public expressions of good will. He spoke at the station of the pleasure a visit to France always gave him, but there was not the slightest public utterance having significance upon pending political affairs.

In this respect the king's reserve is being compared with the freedom of Emperor William's recent utterances.

The passage of the king was unattended by any spectacular feature as it was the earnest wish of the authorities to avoid a political demonstration.

King Edward left Paris at 7:10 p. m. for Marseilles, where he will join Queen Alexandra on board the royal yacht Victoria and Albert.

The public and press herald the meeting as most significant.

The effect of the visit appears to be strengthen the determination to proceed with France's policy in Morocco in accordance with the terms of the Anglo-French agreement, as the visit is construed as a timely expression of the signatories of that agreement.

ISSUES A STATEMENT

AGENT OF THE STANDARD OIL

COMPANY DEFENDS JOHN

D. ROCKEFELLER.

New York, April 7.—S. C. T. Dodd, chief solicitor of the Standard Oil company, gave out a statement during the day with reference to the recent discussion as to the acceptance of a gift of \$100,000 offered by John D. Rockefeller for missionary work. Mr. Dodd declared that the statement that Mr. Rockefeller made his money dishonestly, "is false, is vile and being made by ministers in the pretended interest of morality is doubly vile."

Mr. Dodd says that the Standard Oil company does not own a share of stock of any railroad company, does not control any railroad company and that since the enactment of the interstate commerce law has not received lower rates than other shippers by rebates, arrangements, devices or plans of any character. The testimony of Howard Page, freight agent of the Standard Oil company, before the individual commission is quoted in this connection. With reference to gas and copper companies Mr. Dodd says:

"No doubt many have been prejudiced against Mr. Rockefeller by sensational writers, whose articles, accompanied by portraits and caricatures, are intended to create the impression that Mr. Rockefeller was principal in the affairs relating to the organization of the gas and copper companies, although no fact showing such connection is stated. The Standard Oil company has already denied that it had any connection or interest directly or indirectly in the organization of these corporations and on the best authority the same denial is now made for John D. Rockefeller. He had no connection with nor interest in, directly or indirectly, the organization of these corporations."

MAY INDICT WITNESSES.

Federal Grand Jury at Chicago May Return True Bills.

Chicago, April 7.—Preparations are being made, it is said, by the federal grand jury, which is investigating the so-called beef trust, to indict certain witnesses who have appeared before the inquisitorial body on charges of perjury and for interference with other witnesses. Word was sent to Springfield during the day for Judge Humphrey to come to Chicago. The jury was empaneled by Judge Humphrey and it is asserted that he was summoned for advice concerning the proposed perjury charges.

Fifteen subpoenas were issued during the day for additional Chicago witnesses whose names have been secured by secret service men. These witnesses, it is asserted, have been summoned in connection with the attempt to show that perjury has been committed.

As soon as Judge Humphrey arrived in Chicago he went into conference with District Attorney Morrison and Attorney Pugh. Soon afterwards the new subpoenas were issued and given to deputy marshals for service.

Then there is hose, gloves, corsets and kindred necessities which we furnish at prices which are most reasonable.

AFTER EVENTFUL TRIP

PRESIDENT ROOSEVELT MEETS

HIS OLD ARMY COMRADES AT
SAN ANTONIO, TEX.

STOPS TRAIN IN NOVEL WAY

CITY COUNCIL OF TEMPLE PASSES
LAW REQUIRING SPECIAL TO HALT THERE.

San Antonio, Tex., April 7.—After an eventful trip across a large portion of Texas, President Roosevelt arrived in San Antonio at 8:39 p. m. When the special train bearing the president reached the station he was greeted with cheers from thousands of throats and the lusty "hurrahs" of his old comrades in arms, the famous Rough Riders of the Spanish-American war, who are holding their annual reunion near the crumbling walls of the historic Alamo, could plainly be heard above the din.

The city is a maze of color in honor of the president's visit. Business houses and residences are decorated with flags and bunting.

The president's train was run on a siding near the depot where it will remain until Friday night, when the visitor will leave for Fort Worth. The train is being guarded by a detail of city police and, as the president will be astir early in the morning, every precaution will be taken to permit him to secure a good night's rest.

Given a Cordial Reception.

The president's train left Dallas promptly at 5:30 a. m. Its occupants were sleeping soundly when the long run across the state began, but the president was up and astir at 7 o'clock. The first stop of the day was at Hillsboro, where practically the entire population of the town turned out. The president spoke briefly and was given a cordial reception.

When the train reached Waco, cannon were fired and bands played patriotic airs. The president's address was brief and he was frequently applauded.

The train glided swiftly across the plains of North Texas and at noon entered the fertile valley of the Brazos. Several short stops were made and one especially interested the president because of the manner in which it occurred. When the citizens of Temple learned that the train would not stop at their city a hurried call of the city council was requested. The city fathers immediately passed an

emergency ordinance requiring the train to stop at the depot three minutes. When this news was telegraphed the president he laughed heartily and seemed pleased. He immediately issued instructions that the stop be made. Nearly the total population of the little city was on hand and the greeting accorded the chief executive was most hearty.

President Arrives at Austin.

At Taylor, which was reached at 12:30, the train was switched from the tracks of the Missouri, Kansas and Texas railroad to those of the International and Great Northern, and the run to Austin began. The capital city was reached at 2 o'clock and President Roosevelt was met at the depot by Governor Lenham, Lieutenant Governor Niel and a committee of thirty citizens and members of the Texas legislature. The president was in excellent spirits and appeared none the worse for his long ride across the country. He expressed himself as being most pleased to arrive in Austin under such auspicious circumstances. The entire party were placed in carriages and driven to the state house, where President Roosevelt made two speeches, one in the hall of representatives and the other on the lawn. The president was taken for a drive over the city. The day was ideal and the streets crowded.

One of the most enthusiastic demonstrations of the day occurred at New Braunfels. When the special train arrived there it was surrounded by a dense mass of surging people all anxious to greet the chief executive. New Braunfels is a German settlement and is noted for its thrift and enterprise and the president spoke encouragingly to the people, who cordially applauded his utterances.

The long ride was brought to an end when Stn Antonio was reached shortly before 9 o'clock.

SECURITIES LITIGATION ENDED.

Harriman Interests Consider the Case Closed.

New York, April 7.—It was learned during the day that the Harriman interests having gone over the supreme court's opinion in the Northern Securities case had determined to make no motions in the interval before April 17, fixed by the court for such action. Mr. Harriman and his associates now consider the Northern Securities litigation ended.

Snow Falls in Georgia.

Gainesville, Ga., April 7.—Snow has fallen during the day throughout this section of Georgia and the mercury has dropped rapidly. Much uneasiness is manifested about the peach crop. This is the first snow to fall in Gainesville during the month of April in the memory of the oldest inhabitants.

When other medicines have failed take Foley's Kidney Cure. It has cured when everything else has disappointed.

Bothner Defeats Jap Wrestler.

New York, April 7.—In the wrestling match at Grand Central Palace at night between George Bothner, the American lightweight champion, and Katsugama Higashi, the exponent of Jiu Jitsu, Bothner won the match in three straight falls, the first in 14 minutes, 35 seconds, the second in 1 hour, 31 minutes, 18 seconds, and the third fall in 15 minutes, 20 seconds.

Rooney Resentenced to Hang.

Fargo, N. D., April 7.—With apparent unconcern, John Rooney at night heard Judge Pollock fix the date of his execution for Oct. 17 at the penitentiary at Bismarck. This is the third time sentence of death has been imposed upon the prisoner. Rooney killed Harold Sweet in Fargo Aug. 26, 1902.

SPOTTED FEVER RAGING.

Dread Disease Claims Hundreds of Victims in Germany.

Berlin, April 7.—Spotted fever has been raging for several months in epidemic form in Silesia. In the region around Oppeln about 1,200 cases have been reported, of which fully one-half resulted in death. Much alarm exists among the people, especially the laboring population, and many have fled from the district. The disease is beginning to make its appearance in other parts of the country. Seven deaths are reported from Konitz, West Prussia, and thirty families have deserted the place. Several cases are also announced in the province of Saxony.

Feel tired, no appetite, cannot sleep, work or eat? That's spring tiredness and will disappear at once if you take Hollister's Rocky Mountain Tea this month. 35 cents, tea or tablets. H. P. Dunn & Co.

See Sherlund for sewer connections.

No Knife Needed

Piles can be cured by internal treatment. To get at the cause—that is the secret, and that is why Dr. Perrin's Pile Specific is so universally successful in its results. It increases the flow of digestive juices in the stomach—accelerates the action of the liver. With congestion of the liver removed and constipation relieved, the two chief and distinct causes of piles are reached and conquered.

Dr. Perrin's Pile Specific
The Internal Remedy

For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind.

Certain in its results, this remedy will cure the most obstinate case of Piles.

Dr. Perrin Medical Co., Helena, Mont.

JAP ARMY ADVANCES

OYAMA'S FORCES MARCHING TO ATTACK THE RUSSIANS UNDER LINEVITCH.

MAY BE FORCED TO RETIRE

CZAR'S SOLDIERS WILL IN ALL PROBABILITY BE COMPELLED TO BEAT A RETREAT.

London, April 7.—The correspondent at St. Petersburg of the Times telegraphs:

"The latest official information leads to the belief that the Japanese are advancing in crescent formation, Oku on the left, Nodzu on the center and Kuroki and Kawamura on the right, and with a total strength of 475,000. It is feared that Linevitch will be compelled to withdraw."

REPORTS OF WOUNDED SLAVS.

Describe Conditions Around Mukden After the Battle.

St. Petersburg, April 7.—Invalid Russians who left Mukden on March 26 report that the Hun river bridge had not then been restored. The Japanese in removing Russian wounded from Mukden carried them as far as the railroad in bamboo litters and entrained them on the farther side.

Chinese, it is stated by these returned soldiers, partly pillaged the hospitals in Mukden on March 10, before the arrival of the Japanese, but did not harm the wounded or attendants and acted most humanely toward Russian wounded on the field, assisting the Japanese to remove them.

Russian medical army officers recognize in the adjutant of General Oku's fifth division, a former professor of languages in the seminary of Vladivostok. They also met other Japanese officers who formerly were in the Russian service in Manchuria.

The returned soldiers describe the confusion in the evacuation of Mukden and the fighting in narrow streets and at the gates, where Japanese and Chinese ambushed the last detachments and where General Gafeldt was wounded and captured.

Japs Lost Heavily.

The losses of the Japanese, according to foreigners accompanying them, was nearly 100,000. The Eighth division, for instance, although losing over 7,000, was not considered one of the heavy sufferers. The greatest losses were in the troops operating against General Linevitch, where the struggle was longer and fiercer than elsewhere. The Japanese placed the number of guns captured during the retreat at twenty-six, and also captured thousands of abandoned rifles and immense quantities of boxed rifle ammunition. According to Chinese the Japanese are now rearming their reserves with Russian rifles.

The Japanese army is healthy, excellently clothed and well shod, and its morale is excellent, according to these soldiers.

Japanese officers admitted that they concentrated every last effort to win the battle and threw their entire reserves into the fighting line, leaving the rear communications entirely unprotected. They realized that had the Russians thrown a heavy force of cavalry in the rear, their position would have been critical, but they counted rightly on Russian inertia and were confident of victory.

RUSSIANS WANT A REPUBLIC.

Revolutionary Party Would Establish One on Ruins of the Autocracy.

Moscow, April 7.—The central committee of the revolutionary party has drawn up a document containing the main points of its programme and of this hundreds of thousands of copies are being printed for circulation in all parts of European Russia. The first and main point of the programme is the establishment of a democratic republic on the ruins of the autocracy and besides the usual points of social democratic doctrine it includes many arguments especially directed to Russian conditions and designed to appeal to the self-interest of the Russian proletariat, both agricultural and industrial. It voices phrases familiar to the American ear, such as "initiative and referendum," public ownership of public utilities, etc.

Fatal Collision of Trains.

Bethesda, O., April 7.—In a head-on collision at night between an east-bound passenger train and a west-bound freight on the Baltimore and Ohio, Engineer Atherton of the passenger, was killed, two trainmen were badly injured and several passengers hurt.

No danger of consumption if you use Foley's Honey and Tar to cure that stubborn cough.

KING EDWARD IN PARIS.

British Ruler Holds Long Conversation With French President.

Paris, April 7.—The arrival of King Edward in Paris during the day was the occasion for a notable manifestation of Anglo-French cordiality, which is being interpreted as a general response to Germany's position towards Morocco. The king was met outside the city by President Loubet, who held a private conversation with his majesty, lasting nearly an hour. The details of the conversation excited a wide range of speculation, but its actual purport has not been disclosed. However, a semi-official communication recites that the meeting had far less reserve than that between King Edward and President Loubet last year and that it was marked by the freedom of the confidences exchanged.

Beyond this private conversation, King Edward confined himself to the usual public expressions of good will. He spoke at the station of the pleasure a visit to France always gave him, but there was not the slightest public utterance having significance upon pending political affairs.

In this respect the king's reserve is being compared with the freedom of Emperor William's recent utterances.

The passage of the king was unattended by any spectacular feature as it was the earnest wish of the authorities to avoid a political demonstration.

King Edward left Paris at 7:10 p. m. for Marseilles, where he will join Queen Alexandra on board the royal yacht Victoria and Albert.

The public and press herald the meeting as most significant.

The effect of the visit appears to be strengthen the determination to proceed with France's policy in Morocco in accordance with the terms of the Anglo-French agreement, as the visit is construed as a timely expression of the signatories of that agreement.

ISSUES A STATEMENT

AGENT OF THE STANDARD OIL

COMPANY DEFENDS JOHN

D. ROCKEFELLER.

New York, April 7.—S. C. T. Dodd, chief solicitor of the Standard Oil company, gave out a statement during the day with reference to the recent discussion as to the acceptance of a gift of \$100,000 offered by John D. Rockefeller for missionary work. Mr. Dodd declared that the statement that Mr. Rockefeller made his money dishonestly, "is false, is vile and being made by ministers in the pretended interest of morality is doubly vile."

Mr. Dodd says that the Standard Oil company does not own a share of stock of any railroad company, does not control any railroad company and that since the enactment of the interstate commerce law has not received lower rates than other shippers by rebates, arrangements, devices or plans of any character. The testimony of Howard Page, freight agent of the Standard Oil company, before the individual commission is quoted in this connection. With reference to gas and copper companies Mr. Dodd says:

"No doubt many have been prejudiced against Mr. Rockefeller by sensational writers, whose articles, accompanied by portraits and caricatures, are intended to create the impression that Mr. Rockefeller was principal in the affairs relating to the organization of the gas and copper companies, although no fact showing such connection is stated. The Standard Oil company has already denied that it had any connection or interest directly or indirectly in the organization of these corporations and on the best authority the same denial is now made for John D. Rockefeller. He had no connection with nor interest in, directly or indirectly, the organization of these corporations."

MAY INDICT WITNESSES.

Federal Grand Jury at Chicago May Return True Bills.

Chicago, April 7.—Preparations are being made, it is said, by the federal grand jury, which is investigating the so-called beef trust, to indict certain witnesses who have appeared before the inquisitorial body on charges of perjury and for interference with other witnesses. Word was sent to Springfield during the day for Judge Humphrey to come to Chicago. The jury was empaneled by Judge Humphrey and it is asserted that he was summoned for advice concerning the proposed perjury charges.

Fifteen subpoenas were issued during the day for additional Chicago witnesses whose names have been secured by secret service men. These witnesses, it is asserted, have been summoned in connection with the attempt to show that perjury has been committed.

As soon as Judge Humphrey arrived in Chicago he went into conference with District Attorney Morrison and Attorney Pagin. Soon afterwards the new subpoenas were issued and given to deputy marshals for service.

PRESIDENT ROOSEVELT MEETS

HIS OLD ARMY COMRADES AT SAN ANTONIO, TEX.

STOPS TRAIN IN NOVEL WAY

CITY COUNCIL OF TEMPLE PASSES LAW REQUIRING SPECIAL TO HALT THERE.

San Antonio, Tex., April 7.—After an eventful trip across a large portion of Texas, President Roosevelt arrived in San Antonio at 8:39 p. m. When the special train bearing the president reached the station he was greeted with cheers from thousands of throats and the lusty "hurrahs" of his old comrades in arms, the famous Rough Riders of the Spanish-American war, who are holding their annual reunion near the crumbling walls of the historic Alamo, could plainly be heard above the din.

The city is a maze of color in honor of the president's visit. Business houses and residences are decorated with flags and bunting.

The president's train was run on a siding near the depot where it will remain until Friday night, when the visitor will leave for Fort Worth. The train is being guarded by a detail of city police and, as the president will be astride early in the morning, every precaution will be taken to permit him to secure a good night's rest.

Given a Cordial Reception.

The president's train left Dallas promptly at 5:30 a. m. Its occupants were sleeping soundly when the long run across the state began, but the president was up and astride at 7 o'clock. The first stop of the day was at Hillsboro, where practically the entire population of the town turned out. The president spoke briefly and was given a cordial reception.

When the train reached Waco, cannon were fired and bands played patriotic airs. The president's address was brief and he was frequently applauded.

The train glided swiftly across the plains of North Texas and at noon entered the fertile valley of the Brazos. Several short stops were made and one especially interested the president because of the manner in which it occurred. When the citizens of Temple learned that the train would not stop at their city a hurried call of the city council was requested. The city fathers immediately passed an

emergency ordinance requiring the train to stop at the depot three minutes. When this news was telegraphed the president he laughed heartily and seemed pleased. He immediately issued instructions that the stop be made. Nearly the total population of the little city was on hand and the greeting accorded the chief executive was most hearty.

President Arrives at Austin.

At Taylor, which was reached at 12:30, the train was switched from the tracks of the Missouri, Kansas and Texas railroad to those of the International and Great Northern, and the run to Austin began. The capital city was reached at 2 o'clock and President Roosevelt was met at the depot by Governor Lenham, Lieutenant Governor Niel and a committee of thirty citizens and members of the Texas legislature. The president was in excellent spirits and appeared none the worse for his long ride across the country. He expressed himself as being most pleased to arrive in Austin under such auspicious circumstances. The entire party were placed in carriages and driven to the state house, where President Roosevelt made two speeches, one in the hall of representatives and the other on the lawn. The president was taken for a drive over the city. The day was ideal and the streets crowded.

One of the most enthusiastic demonstrations of the day occurred at New Braunfels. When the special train arrived there it was surrounded by a dense mass of surging people all anxious to greet the chief executive. New Braunfels is a German settlement and is noted for its thrift and enterprise and the president spoke encouragingly to the people, who cordially applauded his utterances.

The long ride was brought to an end when San Antonio was reached shortly before 9 o'clock.

SECURITIES LITIGATION ENDED.

Harriman Interests Consider the Case Closed.

New York, April 7.—It was learned during the day that the Harriman interests having gone over the supreme court's opinion in the Northern Securities case had determined to make no motions in the interval before April 17, fixed by the court for such action. Mr. Harriman and his associates now consider the Northern Securities litigation ended.

Snow Falls in Georgia.

Gainesville, Ga., April 7.—Snow has fallen during the day throughout this section of Georgia and the mercury has dropped rapidly. Much uneasiness is manifested about the peach crop. This is the first snow to fall in Gainesville during the month of April in the memory of the oldest inhabitants.

When other medicines have failed take Foley's Kidney Cure. It has cured when everything else has disappointed.

Bothner Defeats Jap Wrestler.

New York, April 7.—In the wrestling match at Grand Central Palace at night between George Bothner, the American lightweight champion, and Katsuguma Higashi, the exponent of Jiu Jitsu, Bothner won the match in three straight falls, the first in 14 minutes, 35 seconds, the second in 1 hour, 31 minutes, 18 seconds, and the third fall in 15 minutes, 20 seconds.

Rooney Renounced to Hang.

Fargo, N. D., April 7.—With apparent unconcern, John Rooney at night heard Judge Pollock fix the date of his execution for Oct. 17 at the penitentiary at Bismarck. This is the third time sentence of death has been imposed upon the prisoner. Rooney killed Harold Sweet in Fargo Aug. 26, 1902.

SPOTTED FEVER RAGING.

Dread Disease Claims Hundreds of Victims in Germany.

Berlin, April 7.—Spotted fever has been raging for several months in epidemic form in Silesia. In the region around Oppeln about 1,200 cases have been reported, of which fully one-half resulted in death. Much alarm exists among the people, especially the laboring population, and many have fled from the district. The disease is beginning to make its appearance in other parts of the country. Seven deaths are reported from Konigs, West Prussia, and thirty families have deserted the place. Several cases are also announced in the province of Saxony.

Feel tired, no appetite, cannot sleep, work or eat? That's spring tiredness and will disappear at once if you take Hollister's Rocky Mountain Tea this month. 35 cents, tea or tablets. H. P. Dunn & Co.

No Knife Needed

Piles can be cured by internal treatment. To get at the cause—that is the secret, and that is why Dr. Perrin's Pile Specific is so universally successful in its results. It increases the flow of digestive juices in the stomach—accelerates the action of the liver. With congestion of the liver removed and constipation relieved, the two chief and distinct causes of piles are reached and conquered.

Dr. Perrin's Pile Specific

The Internal Remedy

For dyspepsia, indigestion, constipation, biliousness, catarrh of the stomach and kindred ailments it is the greatest remedy that has ever yet benefited mankind. Certain in its results, this remedy will cure the most obstinate case of Piles.

Dr. Perrin Medical Co., Helena, Mont.

The Waterloo of School Fads.

The following editorial of the Minneapolis Tribune of a recent date is printed by request:

"New York city has thrown out the public school fads neck and crop. It did not make two bites of a cherry. The fads have been creeping in by degrees for five years, ever since a modern enlightened educator became superintendent of the consolidated city. The invasion was so insidious that it has attracted attention only in the last two years. The effects were those with which all fad ridden cities are familiar.

"Primary school sessions were lengthened until the little children grew nervous and ill. Classes were crowded with numbers and shortened for time. Teachers were overworked and harassed. Pupils fooled away time with nursery playthings and got a useless snattering of music and drawing, science and language, but came out of the schools unprepared to begin active business life for lack of common knowledge of reading, writing, spelling and arithmetic.

"The revolt against the fads has been gaining ground in the last year. It got into the legislature and made a striking showing. Teachers were emboldened to tell what they thought about it without fear of losing their positions. Parents and the general public supported protesting teachers and appealed to the board of education. A courageous minority of, we think, five took up the fight in that body, to a good purpose.

"It was finally voted last week to throw all of the fads out of the elementary courses beginning next December by a vote of 22 to 12. Hours of study for young children will be cut down. There will be no more fussing with rattles, braids and sewing. The children will play out-of-doors instead of toiling at hygienic games in stuffy rooms. Music, drawing and science will be cut down and an effort made to teach children to read, write and cipher.

"This is mighty wholesome sign for coming generations. The example of New York should give hope and courage to the battle for rational education all over the country."

COMPANY LOST MONEY.

Consolidated Gas Concern Operated at a Loss Last Year.

New York, April 7.—The legislative committee which is inquiring into the lighting conditions in this city during the day learned from various officers of the Consolidated Gas company who appeared before it as witnesses that the company operated last year at a loss of \$18,250. It was further stated that the reason for increasing the capital stock of the Edison Electric Illuminating company from \$21,000,000, at which figure it was bought, to \$26,000,000, was the placing of a \$15,000,000 valuation on the controlling equity in the concern.

A TERRIBLE PENANCE.

Tibetan Monks Who Suffer Life Imprisonment in Dark Cells.

Perhaps the most terrible penance suffered for religious reasons anywhere in the world is that of the monks of Nyen-de-kyi-buk, as described by Percival Landon in "The Opening of Tibet." These monks live in the ordinary manner during the novitiate; then they go into cells for a period of six months; then, after an interval, for three years and ninety-three days; later for life.

And such a cell! "Almost on a level with the ground," says Mr. Landon, "there was an opening closed with a flat stone from behind. In front of this window was a ledge eighteen inches in width, with two basins beside it, one at each end. The abbot was attended by an acolyte who, by his master's orders, tapped three times sharply on the stone slab. We stood in the little courtyard in the sun and watched that wicket with cold apprehension. I think, on the whole, it was the most uncanny thing I saw in all Tibet. After half a minute's pause the stone moved or tried to move, but it came to rest again. Then very slowly and uncertainly it was pushed back, and a black chasm was revealed. There was again a pause of thirty seconds, during which imagination ran riot, but I do not think that any other thing could have been as intensely pathetic as that we actually saw.

"A hand, muffled in a tightly wound piece of dirty cloth, for all the world like a stump of an arm, was painfully thrust up, and very weakly it felt along the slab. After a fruitless fumbling the hand slowly quivered back again into the darkness. A few moments later there was again an ineffectual effort, and then the stone slab moved noiselessly across the opening.

"Once a day water and an unleavened cake of flour is placed for the prisoner upon that slab, the signal is given, and he may take it in. His diversion is over for the day, and in the darkness of his cell, where night and day, moon, sunset and the dawn are all alike, he—poor soul!—had thought that another day of his long penance was over."

COPIED FROM ANIMALS.

Many human devices are copied from animals.

The woodpecker has a powerful little trip hammer.

The jaws of the tortoise and turtle are natural scissors.

The framework of a ship resembles the skeleton of a herring.

The squirrel carries a chisel in his mouth and the bee the carpenter's plane.

The gnat fashions its eggs in the shape of a lifeboat. You cannot sink them without tearing them to pieces.

The diving bell imitates the water spider. It constructs a small cell under the water, claps a bubble of water between its legs, dives down into its submarine chamber with the bubble, displacing the water gradually until its abode contains a large, airy room surrounded by water.

A Warm Retort.

"While I have hitherto sworn off smoking as a New Year's pledge which has never been kept," said a Universalist minister at the Jewelers' club dinner in Chicago some years ago, "this night, with a beautiful smoking set as a souvenir, has brought to me the determination to make a new pledge that I can keep—to smoke as long as I live."

William Porter Williams was the toastmaster. He had been considerably scratched at by the Universalist brother. When the minister was seated Mr. Williams said, "When I reflect upon the uncharitableness of my brother in what he said about me, I am constrained to wonder why in making that resolution to smoke as long as he lived he necessarily drew the line at his death."—Everybody's.

At the Dangerous End.

After the collapse of the Confederacy ex-Senator Wigfall, a member of the Confederate congress from Texas, fell in with a party of Union soldiers in that state. Being well disguised, he entered freely into conversation with the soldiers of the guard, in the course of which he asked what they would do with "old Wigfall" if they were to catch him. "We should hang him, sure," was the prompt reply. "Serve him right," exclaimed Wigfall. "If I were with you I'd be pulling at one end of the rope myself!"

Lattakia Tobacco.

Lattakia tobacco, an article of commerce well known in Europe and America, is black in color owing to its fumigation by the Nusalrieh mountaineers in the smoke of a tree called "elezer" or "ezr," which imparts to it a peculiar aromatic flavor. The "ezr" grows wild, seldom attaining the size of the oak, and gives out its aromatic odor when burned in the green state.

Eve Surprised Him.

"And now, Johnny," said the Sunday school teacher, "is there anything you don't understand about Eve and the serpent?" "Yes, in."

"Well, what?"

"How'd Eve keep from havin' a fit when she seen it comin'?" — Detroit Tribune.

Painfully Tame.

Aunt Jane—Well, there's one thing about Martha—she attends to her own business and to nobody else's. Eva—Poor thing! She must lead a very dull, uninteresting life.—Boston Transcript.

A Fine Disposition.

Pat—Do yez ever git dispondint, Moike? Mike—Only whin O'im feelin' "blue." O' always feel good as long as O'im feelin' foine, be gobe!—Puck.

WRECK NEAR TENSTRIKE

Freight Cars Get Off the Track Near Tenstrike Yesterday Afternoon on M. & I. and Cause Delay.

There was a slight freight wreck on the M. & I. yesterday afternoon this side of Tenstrike. Two cars on a freight jumped the track and it happened to be in a small swamp or low ground and the trainmen had a hard time to clear the wreck up, but it was cleared finally and the trains are now running. The passenger was about an hour late from the north today.

A. R. Bass, of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys. Was cured by Foley's Kidney Cure. mwfwm

A representative of Chas. A. Stevens & Bros.' great style store of Chicago has an elegant sample line of ladies' garments on display in the Ransford Hotel parlors today and tomorrow.

MUSIC AND DRAMA.

"HAPPY HOOLIGAN" TONIGHT.

"Happy Hooligan," a comedy in which Frank Dumont has written a witty dialogue and introduced scenes and incidents even as ludicrous and laughable as Fred Oppen's humorous caricatures in the metropolitan comic papers, will be presented tonight at the Brainerd opera house.

This comedy holds the records for big business in nearly every city of the country. An ensemble of comedians, singers, dancers, specialty and vaudeville artists, in all that is pleasing to the eye and ear, attests its value as a laugh producer. The subject lends many opportunities for extremely funny and ludicrous scenes and situations, display in marches, dances and tableaux, all of which have been turned to practical account by the art of the scene-painter, the skill of the costumer and the genius of the stage director. The comedy is constructed for the delectation of pleasure seekers only, and not for the class that finds recreation in "problem plays" nor in hectic emotional dramas. The interpreting cast includes Frank McNish, John Price, Chas. Bramlich, Ruby Raymond, Eva Thatcher, Charles Saunders and Joseph Pettin-gill.

Sherlund will fix your water pipes.

Concerning Subscriptions.

There seems to be a misapprehension on the part of some as regards the subscription rates on THE DAILY DISPATCH. The rate of \$1 a year or \$1 for three months, is an advance rate and placed thereon in order to save the expense of collection and avoid the loss of accounts. Some, however, seem to think that they can pay at the end of the year and are then entitled to the paper for \$1. A moment's thought will show that such a course is simply putting a premium on not paying and would if permitted result in the loss to us of many accounts of nearly or quite a year each. Parties wishing the yearly rate must pay in advance or promptly on the presentation of account by the collector. tf

COPIED FROM ANIMALS.

Many human devices are copied from animals.

The woodpecker has a powerful little trip hammer.

The jaws of the tortoise and turtle are natural scissors.

The framework of a ship resembles the skeleton of a herring.

The squirrel carries a chisel in his mouth and the bee the carpenter's plane.

The gnat fashions its eggs in the shape of a lifeboat. You cannot sink them without tearing them to pieces.

The diving bell imitates the water spider. It constructs a small cell under the water, claps a bubble of water between its legs, dives down into its submarine chamber with the bubble, displacing the water gradually until its abode contains a large, airy room surrounded by water.

Kills His Wife and Himself.

Oklahoma City, Okla., April 7.—M. L. Sheppard at night shot dead his wife and then committed suicide. Domestic difficulties are assigned as the cause for the tragedy.

Cash Department Store

Our Great Closing Out Sale is still on and after many years of successful business in Brainerd we are going to retire from the Mercantile business, and are offering great bargains in all our Dry Goods, Clothing, Shoes and Groceries. Your money will buy better values during this Closing Out Sale than else where during this season of the year. During this sale we are going to make prices that will appeal to all economical buyers. The Waterloo of School Fads.

The following editorial of the Minneapolis Tribune of a recent date is printed by request:

"New York city has thrown out the public school fads neck and crop. It did not make two bites of a cherry. The fads have been creeping in by degrees for five years, ever since a modern enlightened educator became superintendent of the consolidated city. The invasion was so insidious that it has attracted attention only in the last two years. The effects were those with which all fad ridden cities are familiar.

"Primary school sessions were lengthened until the little children grew nervous and ill. Classes were crowded with numbers and shortened for time. Teachers were overworked and harassed. Pupils fooled away time with nursery playthings and got a useless smattering of music and drawing, science and language, but came out of the schools unprepared to begin active business life for lack of common knowledge of reading, writing, spelling and arithmetic.

"The revolt against the fads has been gaining ground in the last year. It got into the legislature and made a striking showing. Teachers were emboldened to tell what they thought about it without fear of losing their positions. Parents and the general public supported protesting teachers and appealed to the board of education. A courageous minority of, we think, five took up the fight in that body, to a good purpose.

"It was finally voted last week to throw all of the fads out of the elementary courses beginning next December by a vote of 22 to 12. Hours of study for young children will be cut down. There will be no more fussing with raffia, braid and sewing. The children will play out-of-doors instead of toiling at hygienic games in stuffy rooms. Music, drawing and science will be cut down and an effort made to teach children to read, write and cipher.

"This is mighty wholesome sign for coming generations. The example of New York should give hope and courage to the battle for rational education all over the country."

COMPANY LOST MONEY.

Consolidated Gas Concern Operated at a Loss Last Year.

New York, April 7.—The legislative committee which is inquiring into the lighting conditions in this city during the day learned from various officers of the Consolidated Gas company who appeared before it as witnesses that the company operated last year at a loss of \$18,250. It was further stated that the reason for increasing the capital stock of the Edison Electric Illuminating company from \$21,000,000, at which figure it was bought, to \$26,000,000, was the placing of a \$15,000,000 valuation on the controlling equity in the concern.

A TERRIBLE PENANCE.

Tibetan Monks Who Suffer Life Imprisonment in Dark Cells.

Perhaps the most terrible penance suffered for religious reasons anywhere in the world is that of the monks of Nyen-de-kyi-buk, as described by Percival Landon in "The Opening of Tibet." These monks live in the ordinary manner during the novitiate; then they go into cells for a period of six months; then, after an interval, for three years and ninety-three days; later for life.

And such a cell! "Almost on a level with the ground," says Mr. Landon, "there was an opening closed with a flat stone from behind. In front of this window was a ledge eighteen inches in width, with two basins beside it, one at each end. The abbot was attended by an acolyte who, by his master's orders, tapped three times sharply on the stone slab. We stood in the little courtyard in the sun and watched that wicket with cold apprehension. I think, on the whole, it was the most uncanny thing I saw in all Tibet. After half a minute's pause the stone moved or tried to move, but it came to rest again. Then very slowly and uncertainly it was pushed back, and a black chasm was revealed. There was again a pause of thirty seconds, during which imagination ran riot, but I do not think that any other thing could have been as intensely pathetic as that we actually saw."

"A hand, muffled in a tightly wound piece of dirty cloth, for all the world like a stump of an arm, was painfully thrust up, and very weakly it felt along the slab. After a fruitless fumbling the hand slowly quivered back again into the darkness. A few moments later there was again an ineffectual effort, and then the stone slab moved noiselessly across the opening."

"Once a day water and an unleavened cake of flour is placed for the prisoner upon that slab, the signal is given, and he may take it in. His diversion is over for the day, and in the darkness of his cell, where night and day, moon, sunset and the dawn are all alike, he—poor soul!—had thought that another day of his long penance was over."

COPIED FROM ANIMALS.

Many human devices are copied from animals. The woodpecker has a powerful little trip hammer.

The jaws of the tortoise and turtle are natural scissors. The framework of a ship resembles the skeleton of a herring.

The squirrel carries a chisel in his mouth and the bee the carpenter's plane.

The goat fashions its eggs in the shape of a lifeboat. You cannot sink them without tearing them to pieces.

The diving bell imitates the water spider. It constructs a small cell under the water, clasps a bubble of water between its legs, dives down into its submarine chamber with the bubble, displacing the water gradually until its abode contains a large, airy room surrounded by water.

A Warm Retort. "While I have hitherto sworn off smoking as a New Year's pledge which has never been kept," said a Universalist minister at the Jewelers' club dinner in Chicago some years ago, "this night, with a beautiful smoking set as a souvenir, has brought to me the determination to make a new pledge that I can keep—to smoke as long as I live."

William Porter Williams was the toastmaster. He had been considerably scratched at by the Universalist brother. When the minister was seated Mr. Williams said, "When I reflect upon the uncharitableness of my brother in what he said about me, I am constrained to wonder why in making that resolution to smoke as long as he lived he necessarily drew the line at his death."—Everybody's.

At the Dangerous End. After the collapse of the Confederacy ex-Senator Wigfall, a member of the Confederate congress from Texas, fell in with a party of Union soldiers in that state. Being well disguised, he entered freely into conversation with the soldiers of the guard, in the course of which he asked what they would do with "old Wigfall" if they were to catch him. "We should hang him, sure," was the prompt reply. "Serve him right," exclaimed Wigfall. "If I were with you I'd be pulling at one end of the rope myself"

Lattakia Tobacco. Lattakia tobacco, an article of commerce well known in Europe and America, is black in color owing to its fumigation by the Nusalrieh mountaineers in the smoke of a tree called "elezer" or "ezr," which imparts to it a peculiar aromatic flavor. The "ezr" grows wild, seldom attaining the size of the oak, and gives out its aromatic odor when burned in the green state.

Eve Surprised Him. "And now, Johnny," said the Sunday school teacher, "is there anything you don't understand about Eve and the serpent?"

"Yes'm."

"Well, what?"

"How'd Eve keep from havin' a fit when she seen it comin'?" — Detroit Tribune.

Painfully Tame. Aunt Jane—Well, there's one thing about Martha—she attends to her own business and to nobody else's. Eva—Poor thing! She must lead a very dull, uninteresting life.—Boston Transcript.

A Fine Disposition. Pat—Do yez ever get dispondint, Molke? Mike—Only when Ot'm feelin' "blue." Ol' always feel good as long as Ol'm feelin' folne, be gobe!—Puck.

WRECK NEAR TENSTRIKE

Freight Cars Get Off the Track Near Tenstrike Yesterday Afternoon on M. & I. and Cause Delay.

There was a slight freight wreck on the M. & I. yesterday afternoon this side of Tenstrike. Two cars on a freight jumped the track and it happened to be in a small swamp or low ground and the trainmen had a hard time to clear the wreck up, but it was cleared finally and the trains are now running. The passenger was about an hour late from the north today.

A. R. Bass, of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys. Was cured by Foley's Kidney Cure. mwfwm

A representative of Chas. A. Stevens & Bros.' great style store of Chicago has an elegant sample line of ladies' garments on display in the Ransford Hotel parlors today and tomorrow.

MUSIC AND DRAMA.

"HAPPY HOOLIGAN" TONIGHT.

"Happy Hooligan," a comedy in which Frank Dumont has written a witty dialogue and introduced scenes and incidents even as ludicrous and laughable as Fred Oppen's humorous caricatures in the metropolitan comic papers, will be presented tonight at the Brainerd opera house.

This comedy holds the records for big business in nearly every city of the country. An ensemble of comedians, singers, dancers, specialty and vaudeville artists, in all that is pleasing to the eye and ear, attests its value as a laugh producer. The subject lends many opportunities for extremely funny and ludicrous scenes and situations, display in marches, dances and tableaux, all of which have been turned to practical account by the art of the scene-painter, the skill of the costumer and the genius of the stage director. The comedy is constructed for the delectation of pleasure seekers only, and not for the class that finds recreation in "problem plays" nor in hectic emotional dramas. The interpreting cast includes Frank McNish, John Price, Chas. Bramlich, Ruby Raymond, Eva Thatcher, Charles Saunders and Joseph Pettin-gill.

TOM MARKS STOCK CO.

The seat sale for the Tom Marks Stock company will open tomorrow morning at H. P. Dunn & Co.'s drug store. This company comes to the Brainerd opera house for one week, appearing in repertoire, and it is said that the company is one of the best week stand shows in the country, playing at 15c, 25c and 50c.

On Monday evening, the opening night, a free lady's ticket will be given to every one purchasing one 50 cent ticket. "The Irish Boarder" will be the first offering.

The surest and safest remedy for kidney and bladder diseases is Foley's Kidney Cure. mwfwm

Sherlund will fix your water pipes.

Concerning Subscriptions.

There seems to be a misapprehension on the part of some as regards the subscription rates on THE DAILY DISPATCH. The rate of \$4 a year or \$1 for three months, is an advance rate and placed thereon in order to save the expense of collection and avoid the loss of accounts. Some, however, seem to think that they can pay at the end of the year and are then entitled to the paper for \$4. A moment's thought will show that such a course is simply putting a premium on not paying and would if permitted result in the loss to us of many accounts of nearly or quite a year each. Parties wishing the yearly rate must pay in advance or promptly on the presentation of account by the collector. tf

COPIED FROM ANIMALS.

Many human devices are copied from animals. The woodpecker has a powerful little trip hammer.

The jaws of the tortoise and turtle are natural scissors. The framework of a ship resembles the skeleton of a herring.

The squirrel carries a chisel in his mouth and the bee the carpenter's plane.

The goat fashions its eggs in the shape of a lifeboat. You cannot sink them without tearing them to pieces.

The diving bell imitates the water spider. It constructs a small cell under the water, clasps a bubble of water between its legs, dives down into its submarine chamber with the bubble, displacing the water gradually until its abode contains a large, airy room surrounded by water.

Kills His Wife and Himself.

Oklahoma City, Okla., April 7.—M. L. Sheppard at night shot dead his wife and then committed suicide. Domestic difficulties are assigned as the cause for the tragedy.

Cash Department Store

Our Great Closing Out Sale is still on and after many years of successful business in Brainerd we are going to retire from the Mercantile business, and are offering great bargains in all our Dry Goods, Clothing, Shoes and Groceries. Your money will buy better values during this Closing Out Sale than else where during this season of the year. During this sale we are going to make prices that will appeal to all economical buyers. We want the goods sold.

We have a fine line of ladies' spring suits and skirts which we are offering at cost. We have a few more ladies' cloaks at one-half price, also everything in the dry goods line will be sold at a great reduction.

Our grocery line is complete and we will give you some bargains that you cannot get elsewhere. Having done our duty to call your attention to our many bargains we will leave you to yours by seeing them. So call and convince yourselves.

Was in Torture all the Time.

Had Pains in His Back.

Dr. Fenner, Fredonia, N. Y.

Dear Sir:—Some six months ago a friend recommended to me your justly celebrated Kidney and Backache Cure. I was at that time suffering intensely from pains in my back.

My work daily aggravated the complaint and I was in torture all the time. After taking two bottles of your medicine I was relieved and two more completely cured me. I feel like a new man now, thanks to your Remedy, and unhesitatingly recommend it to those suffering as I was.

Sincerely yours,
Howard Sproule,
797 Agate St., St. Paul, Minn.

PLEA FOR SPIRITUALISM.

Pastor Tells of Its Value in Demonstrating Soul's Immortality.

That there is nothing in the phenomena of spiritualism inconsistent with the doctrines of the church, but that on the contrary through it may come the scientific demonstration of the immortality of the soul, is the declaration of the Rev. Dr. Otto F. Bartholow, pastor of the James Methodist Episcopal church of Brooklyn, says the New York Herald.

While Dr. Bartholow declared recently that he believed in the phenomena of spiritualism and that it was a subject worthy of investigation on the part of every thinking man, he believed that few if any of the alleged mediums were genuine.

"To my mind there is nothing in spiritualism that is in any way inconsistent with the doctrines of the church," Dr. Bartholow said. "It is true that many persons ridicule it, but there has been nothing new in the physical or spiritual world that was not scoffed at in the beginning. The learned professors of his day were as confident that Columbus would sail into a sea of boiling fire when he started on his westward trip as the learned professors of today are that there is nothing in the phenomena of spiritualism.

"It may be that through spiritualism will come the scientific demonstration of the immortality of the soul. And why should not this be scientifically demonstrated? There is not a thinking man today who does not believe in mind reading or telepathy and phrenology, and yet in the beginning of the study of these subjects they were ridiculed in every way as much as spiritualism is today.

"In affirming my belief in spiritualism I make no brief for the so called mediums, for they will, as they have, do more to prevent a scientific study of the subject than any other thing. That to these mediums are given a monopoly of the communication between the spirits that have gone before seems to me to be as wicked as it is impossible. How much more natural it would be for a spirit to communicate with a person with whom a feeling of love and sympathy existed!

"If spiritualism should become as settled a principle as telepathy it would wipe away every argument of the atheist. It will do no harm to give the study of spiritualism the deepest thought, and it is worthy the best investigation on the part of scientists as well as the theologians. These people who prey on the bereaved, who in their hour of grief are looking everywhere for solace, should be suppressed, but that 90 per cent of the mediums are frauds is no argument that as a phenomena spiritualism is not worthy the best thought of the age."

A TERRIBLE PENANCE.

Tibetan Monks Who Suffer Life Imprisonment in Dark Cells.

Perhaps the most terrible penance suffered for religious reasons anywhere in the world is that of the monks of Nyen-de-kyi-buk, as described by Percival Landon in "The Opening of Tibet." These monks live in the ordinary manner during the novitiate; then they go into cells for a period of six months; then, after an interval, for three years and ninety-three days; later for life.

And such a cell! "Almost on a level with the ground," says Mr. Landon, "there was an opening closed with a flat stone from behind. In front of this window was a ledge eighteen inches in width, with two basins beside it, one at each end. The abbot was attended by an acolyte who, by his master's orders, tapped three times sharply on the stone slab. We stood in the little courtyard in the sun and watched that wicket with cold apprehension. I think, on the whole, it was the most uncanny thing I saw in all Tibet. After half a minute's pause the stone moved or tried to move, but it came to rest again. Then very slowly and uncertainly it was pushed back, and a black chasm was revealed. There was again a pause of thirty seconds, during which imagination ran riot, but I do not think that any other thing could have been as intensely pathetic as that we actually saw.

"A hand, muffled in a tightly wound piece of dirty cloth, for all the world like a stump of an arm, was painfully thrust up, and very weakly it felt along the slab. After a fruitless fumbling the hand slowly quivered back again into the darkness. A few moments later there was again an ineffectual effort, and then the stone slab moved noiselessly across the opening.

"Once a day water and an unleavened cake of flour is placed for the prisoner upon that slab, the signal is given, and he may take it in. His diversion is over for the day, and in the darkness of his cell, where night and day, moon, sunset and the dawn are all alike, he—poor soul!—had thought that another day of his long penance was over."

Almost Beyond Belief.

ONLY ONE

The Record in Brainerd is a Unique One.

If the reader has a "bad back" or any kidney ill and is looking for relief and cure, better depend on the only remedy endorsed by people you know. Doan's Kidney Pills relieve quickly—cure permanently. Brainerd citizens testify to this. Here is a case of it:

James Parker, carpenter, of 124 2nd Ave. N. E., Brainerd Minn., says: "Every winter since I had the gripe I was unable to shake off its effects. My back commenced to pain me across the kidneys with a numb sort of aching which I felt always over the same spot even when lying in bed. I was also troubled with headache which I think arose from my kidneys. I got a box of Doan's Kidney Pills and used them. Since then I have been in much better health, have no more attacks of headache and no more backache and I regard it as quite wonderful that any remedy could bring about such a change."

On October 18, 1904, six years after Mr. Parker made the above statement, the testimony was confirmed by Mrs. Parker. She said: "Mr. Parker's statement was true in every particular, and we both feel that Doan's Kidney Pills can be relied upon to cure every form of kidney trouble. We are always glad to advise sufferers to go to H. P. Dunn & Co.'s drug store for Doan's Kidney Pills and give them a trial."

Sold for 50 cents a box by H. P. Dunn & Co., and all druggists. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S. Remember the name—Doan's—and take no substitute.

PLEA FOR SPIRITUALISM.

Pastor Tells of Its Value in Demonstrating Soul's Immortality.

That there is nothing in the phenomena of spiritualism inconsistent with the doctrines of the church, but that on the contrary through it may come the scientific demonstration of the immortality of the soul, is the declaration of the Rev. Dr. Otho F. Bartholow, pastor of the James Methodist Episcopal church of Brooklyn, says the New York Herald.

While Dr. Bartholow declared recently that he believed in the phenomena of spiritualism and that it was a subject worthy of investigation on the part of every thinking man, he believed that few if any of the alleged mediums were genuine.

"To my mind there is nothing in spiritualism that is in any way inconsistent with the doctrines of the church," Dr. Bartholow said. "It is true that many persons ridicule it, but there has been nothing new in the physical or spiritual world that was not scoffed at in the beginning. The learned professors of his day were as confident that Columbus would sail into a sea of boiling fire when he started on his westward trip as the learned professors of today are that there is nothing in the phenomena of spiritualism.

"It may be that through spiritualism will come the scientific demonstration of the immortality of the soul. And why should not this be scientifically demonstrated? There is not a thinking man today who does not believe in mind reading or telepathy and phrenology, and yet in the beginning of the study of these subjects they were ridiculed in every way as much as spiritualism is today.

"In affirming my belief in spiritualism I make no brief for the so called mediums, for they will, as they have, do more to prevent a scientific study of the subject than any other thing. That to these mediums are given a monopoly of the communication between the spirits that have gone before seems to me to be as wicked as it is impossible. How much more natural it would be for a spirit to communicate with a person with whom a feeling of love and sympathy existed!

"If spiritualism should become as settled a principle as telepathy it would wipe away every argument of the atheist. It will do no harm to give the study of spiritualism the deepest thought, and it is worthy the best investigation on the part of scientists as well as the theologians. These people who prey on the bereaved, who in their hour of grief are looking everywhere for solace, should be suppressed, but that 90 per cent of the mediums are frauds is no argument that as a phenomena spiritualism is not worthy the best thought of the age."

A TERRIBLE PENANCE.

Tibetan Monks Who Suffer Life Imprisonment in Dark Cells.

Perhaps the most terrible penance suffered for religious reasons anywhere in the world is that of the monks of Nyen-de-kyi-buk, as described by Percival Landon in "The Opening of Tibet." These monks live in the ordinary manner during the novitiate; then they go into cells for a period of six months; then, after an interval, for three years and ninety-three days; later for life.

And such a cell! "Almost on a level with the ground," says Mr. Landon, "there was an opening closed with a flat stone from behind. In front of this window was a ledge eighteen inches in width, with two basins beside it, one at each end. The abbot was attended by an acolyte who, by his master's orders, tapped three times sharply on the stone slab. We stood in the little courtyard in the sun and watched that wicket with cold apprehension. I think, on the whole, it was the most uncanny thing I saw in all Tibet. After half a minute's pause the stone moved or tried to move, but it came to rest again. Then very slowly and uncertainly it was pushed back, and a black chasm was revealed. There was again a pause of thirty seconds, during which imagination ran riot, but I do not think that any other thing could have been as intensely pathetic as that we actually saw.

"A hand, muffled in a tightly wound piece of dirty cloth, for all the world like a stump of an arm, was painfully thrust up, and very weakly it felt along the slab. After a fruitless fumbling the hand slowly quivered back again into the darkness. A few moments later there was again an ineffectual effort, and then the stone slab moved noiselessly across the opening.

"Once a day water and an unleavened cake of flour is placed for the prisoner upon that slab, the signal is given, and he may take it in. His diversion is over for the day, and in the darkness of his cell, where night and day, moon, sunset and the dawn are all alike, he—poor soul!—had thought that another day of his long penance was over."

Almost Beyond Belief.

For the last 16 years, writes Mr. Frank Nergang, of New Hampton, Iowa, I have suffered severely from rheumatism and I owe my complete restoration to that wonderful remedy, Gloria Tonic. I used twelve boxes in all. Sold by H. P. Dunn & Co. mfw

Lattakia Tobacco.

Lattakia tobacco, an article of commerce well known in Europe and America, is black in color owing to its fumigation by the Nisairieh mountaineers in the smoke of a tree called "elezer" or "ezr," which imparts to it a peculiar aromatic flavor. The "ezr" grows wild, seldom attaining the size of the oak, and gives out its aromatic odor when burned in the green state.

Eve Surprised Him.

"And now Johnny," said the Sunday school teacher, "is there anything you don't understand about Eve and the serpent?"

"Yes'm."

"Well, what?"

"How'd Eve keep from havin' a fit when she seen it comin'?" — Detroit Tribune.

Painfully Tame.

Aunt Jane—Well, there's one thing about Martha—she attends to her own business and to nobody else's. Eva—Poor thing! She must lead a very dull, uninteresting life.—Boston Transcript.

A Fine Disposition.

Pat—Do yez ever git dispondint, Molke? Mike—Only whin Ol'm feelin' "blue." Ol always feel good as long as Ol'm feelin' foine, be gobs!—Puck.

ONLY ONE

The Record in Brainerd is a Unique One.

If the reader has a "bad back" or any kidney ill and is looking for relief and cure, better depend on the only remedy endorsed by people you know. Doan's Kidney Pills relieve quickly—cure permanently. Brainerd citizens testify to this. Here is a case of it:

James Parker, carpenter, of 124 2nd Ave. N. E., Brainerd Minn., says: "Every winter since I had the gripe I was unable to shake off its effects. My back commenced to pain me across the kidneys with a numb sort of aching which I felt always over the same spot even when lying in bed. I was also troubled with headache which I think arose from my kidneys. I got a box of Doan's Kidney Pills and used them. Since then I have been in much better health, have no more attacks of headache and no more backache and I regard it as quite wonderful that any remedy could bring about such a change."

On October 18, 1904, six years after Mr. Parker made the above statement, the testimony was confirmed by Mrs. Parker. She said: "Mr. Parker's statement was true in every particular, and we both feel that Doan's Kidney Pills can be relied upon to cure every form of kidney trouble. We are always glad to advise sufferers to go to H. P. Dunn & Co.'s drug store for Doan's Kidney Pills and give them a trial.

Sold for 50 cents a box by H. P. Dunn & Co., and all druggists. Foster Milburn Co., Buffalo, N. Y., sole agents for the U. S.

ENGINEER MURRAY INSTANTLY KILLED

Bad Wreck on Cut-off this Morn-
ing Resulting in the Loss
of One Life

NOS. 3 AND 54 COME TOGETHER

None of the Passengers on the
Coast Train Were Injured
in the Wreck.

There was a most disastrous wreck over on the cut-off at 2 o'clock this morning in which Engineer "Bob" Mur- ray, one of the best known employees of the Northern Pacific on the Minnesota division, was killed outright. It was a head end collision between No. 3, the coast train, and No. 54, a freight running east.

The wreck, like many others, can hardly be accounted for since every pre- caution was taken for the meeting of the two trains at Cushing, a small sid- ing east of Staples. From the informa- tion obtainable at this point No. 54 had reached the grade just west of Cushing and could not quite make it, so the train- men decided to double in. Half of the train had already been pushed in on the siding at Cushing and as the time for the arrival of No. 3 was close at hand torpedoes were placed on the track and a man was sent out to signal her.

No. 3, which is one of the fastest trains on the system, runs at a high rate of speed and especially over the cut-off. The rumbling of the wheels could be heard in the distance and the flagman was ready to give the signal to hold her up so the balance of the cars of No. 54 could be brought in on the sidetrack. Engineer Murray, who was on the ill- fated engine of No. 3, caught the sig- nals all right and the torpedoes also did their work. The train slackened up for an instant and then started to pull up slowly. It is presumed that Engi- neer Murray thought he had given No. 54 time enough to get into the clear, but when it was too late he discovered his mistake and decided to stick to his post

and try and relieve the situation as much as possible.

Engineer Ford was on the engine of No. 54, and he saw the impending dan- ger and both he and his fireman jumped and were not injured. As there was a grade No. 3 was going at a rate of about 30 miles an hour. The two engines came together with a crash head on. Fireman Montgomery of No. 3 jumped and escaped injury. The engines tele- scoped and two or three cars of lumber on the freight were piled up in a mas- sive, conglomerated mess. The shock that came to the passengers was rather sudden, especially at that time of the night, but none were injured to any ex- tent, save a few slight bruises.

The last thing Fireman Montgomery said to Engineer Murray was, "They are still on ahead of us," to which the engi- neer replied, "No, they are in the clear." This shows that the engineer thought they were out of the way and he opened up the throttle and plowed madly on to instant death.

The wreck, occurring as it did about 2 o'clock this morning, made it very hard for the trainmen to see or do any- thing about the train and the wildest kind of excitement reigned for a time. The mail car, a monster, had on about eight tons of mail and at the time of the wreck there were five mail clerks in it but they all escaped injury, which seems miraculous in view of the results. The car was almost cut in two and the ends and the sides were smashed to smith- ereens. The mail clerks were badly shaken up and one poor fellow was so overcome from the shock that it took several hours to revive him.

The work of relieving the unfortunate engineer of No. 3 commenced at once. It was not known at first how many of the trainmen were killed but they show- ed up finally one by one, except Engi- neer "Bob" Murray and it was almost certain that he was buried beneath the debris with his engine.

It was nearly two hours before his body was found. It was smashed and bruised almost beyond recognition. It is said that the unfortunate man's head

was crushed so that it was as flat as a man's hand. He had also been badly scalded. He was found at the boiler head of the wrecked engine.

It took several hours to get the wreck cleared up enough so that the train could be moved back and get the pas- sengers out. Medical aid was summon- ed from Staples and Dr. Cameron was on the scene of the wreck in a short time and busied himself in administer- ing to the wants of the passengers and the trainmen.

The mail was unloaded and another car was secured at Little Falls, where No. 3 backed up to. Here another en- gine was secured and the train went west coming by the way of Brainerd. It reached Brainerd about 8:30 o'clock where another engine was secured.

No. 3 was composed of a mail car, two baggage cars and ten coaches and is one of the best trains on the system.

The engine on which Engineer Mur- ray met his death is and has been con- sidered a hoodoo for a long time by the railroad men. In fact not long ago when it was taken to the round house for slight repairs it came out all paint- ed in deep black, significant as a mark of mourning for those who had gone to death while running it. It is claimed that no less than twelve men have met a fate similar to that which Engineer Murray encountered last night on this engine. It is No. 228 and it was this engine that killed Engineer Nason at Detroit, Engineer Scott at Dower Lake and several firemen have gone down with her. The engine was out on the Yellow- stone division for a time and it is said that five men lost their lives on it out there. The engine was in the shops here after the big wreck at Dower Lake about two years ago and was the sub- ject of much comment at that time. It is reported that Engineer Murray once jumped from this very engine in a wreck at Elk River.

Mr. Murray was very well known in the service and has been with the com- pany for many years. He formerly ran on the west end, but was transferred some time ago to Nos. 3 and 4. He was a man about 50 years of age, small in stature and of a very sunny disposition.

There has been a rather busy time in the N. P. yards in this city today in con- sequence of the wreck. Besides No. 3 which passed through here there was the North Coast Limited and the other coast trains and all the freights which would have otherwise run over the "cut off." The wreck is being cleared as rapidly as possible and it is thought that by 12 o'clock tonight the trains will be running over the cut off again.

Engineer Murray, who was killed is a brother of William Murray, of Smiley, formerly a resident of this city. Mr. Murray was sent for this morning and he arrived from the north on the M. & I., and went to Staples on No. 5 to take the remains to St. Paul, the home of the deceased engineer. Mr. Murray stated this noon that his brother had been in the service of the N. P. for 25 years and most of the time was spent on the Minnesota division. He was run- ning an engine when William Murray came to this city. He has a wife and several children who make their home in St. Paul. Sympathy is extended to the brother by his many friends here.

Dr. Mowers, of the N. P. Sanitarium, stated this afternoon that no one was brought to the hospital here and as he understood it no one was injured to any extent. Many of the passengers, he said, were slightly bruised but that was all.

ENGINEER MURRAY INSTANTLY KILLED

Bad Wreck on Cut-off this Morning Resulting in the Loss of One Life

NOS. 3 AND 54 COME TOGETHER

None of the Passengers on the Coast Train Were Injured in the Wreck.

There was a most disastrous wreck over on the cut-off at 2 o'clock this morning in which Engineer "Bob" Murray, one of the best known employees of the Northern Pacific on the Minnesota division, was killed outright. It was a head end collision between No. 3, the coast train, and No. 54, a freight running east.

The wreck, like many others, can hardly be accounted for since every precaution was taken for the meeting of the two trains at Cushing, a small siding east of Staples. From the information obtainable at this point No. 54 had reached the grade just west of Cushing and could not quite make it, so the trainmen decided to double in. Half of the train had already been pushed in on the siding at Cushing and as the time for the arrival of No. 3 was close at hand torpedoes were placed on the track and a man was sent out to signal her.

No. 3, which is one of the fastest trains on the system, runs at a high rate of speed and especially over the cut-off. The rumbling of the wheels could be heard in the distance and the flagman was ready to give the signal to hold her up so the balance of the cars of No. 54 could be brought in on the sidetrack. Engineer Murray, who was on the ill-fated engine of No. 3, caught the signals all right and the torpedoes also did their work. The train slackened up for an instant and then started to pull up slowly. It is presumed that Engineer Murray thought he had given No. 54 time enough to get into the clear, but when it was too late he discovered his mistake and decided to stick to his post

and try and relieve the situation as much as possible.

Engineer Ford was on the engine of No. 54, and he saw the impending danger and both he and his fireman jumped and were not injured. As there was a grade No. 3 was going at a rate of about 30 miles an hour. The two engines came together with a crash head on. Fireman Montgomery of No. 3 jumped and escaped injury. The engines telescoped and two or three cars of lumber on the freight were piled up in a massive, conglomerated mess. The shock that came to the passengers was rather sudden, especially at that time of the night, but none were injured to any extent, save a few slight bruises.

The last thing Fireman Montgomery said to Engineer Murray was, "They are still on ahead of us," to which the engineer replied, "No, they are in the clear." This shows that the engineer thought they were out of the way and he opened up the throttle and plowed madly on to instant death.

The wreck, occurring as it did about 2 o'clock this morning, made it very hard for the trainmen to see or do anything about the train and the wildest kind of excitement reigned for a time. The mail car, a monster, had on about eight tons of mail and at the time of the wreck there were five mail clerks in it but they all escaped injury, which seems miraculous in view of the results. The car was almost cut in two and the ends and the sides were smashed to smithereens. The mail clerks were badly shaken up and one poor fellow was so overcome from the shock that it took several hours to revive him.

The work of relieving the unfortunate engineer of No. 3 commenced at once. It was not known at first how many of the trainmen were killed but they showed up finally one by one, except Engineer "Bob" Murray and it was almost certain that he was buried beneath the debris with his engine.

It was nearly two hours before his body was found. It was smashed and bruised almost beyond recognition. It is said that the unfortunate man's head

was crushed so that it was as flat as a man's hand. He had also been badly scalded. He was found at the boiler head of the wrecked engine.

It took several hours to get the wreck cleared up enough so that the train could be moved back and get the passengers out. Medical aid was summoned from Staples and Dr. Cameron was on the scene of the wreck in a short time and busied himself in administering to the wants of the passengers and the trainmen.

The mail was unloaded and another car was secured at Little Falls, where No. 3 backed up to. Here another engine was secured and the train went west coming by the way of Brainerd. It reached Brainerd about 8:30 o'clock where another engine was secured.

No. 3 was composed of a mail car, two baggage cars and ten coaches and is one of the best trains on the system.

The engine on which Engineer Murray met his death is and has been considered a hoodoo for a long time by the railroad men. In fact not long ago when it was taken to the round house for slight repairs it came out all painted in deep black, significant as a mark of mourning for those who had gone to death while running it. It is claimed that no less than twelve men have met a fate similar to that which Engineer Murray encountered last night on this engine. OFFICERS INSTALLED

Members of Brainerd Lodge Met Last Night and the Officers Were Installed for the Ensuing Year

There was a meeting of Brainerd lodge, B. F. O. E., last night and the officers elected for the ensuing year were installed. Before the installation ceremonies two candidates were initiated, C. E. Wilson and Chas. Sturtz. Past Exalted Ruler J. T. Sanborn was the installing officer.

The following officers were installed: Exalted Ruler—C. D. Johnson. Esteemed Loyal Knight—J. J. Nolan. Esteemed Leading Knight—E. O. Webb.

Secretary—F. E. Low. Treasurer—C. A. Walker. Trustee—Milton McFadden.

At the close of the installation a brief talk by Exalted Ruler Johnson was highly appreciated. He announced the appointment of T. E. Canan esquire and Fred Eliason inner guard.

A. L. Mattes was elected representative to the grand lodge and J. T. Sanborn was selected as alternate.

Nettleton Rents and Sells Houses.

Try the Boardman Hotel, St. Paul. Centrally located and rates reasonable.

Colic? Maybe its appendicitis? Give him a dose of Dr. Adler's Treatment. No need to worry then. Cures and prevents appendicitis. Better have a bottle in the house. For sale at Johnson's Pharmacy. 257tf

HARMONIOUS SESSION

BOARD OF DIRECTORS OF EQUITABLE LIFE ASSURANCE SOCIETY MEETS.

ADOPT MUTUALIZATION PLAN

AUTHORITATIVELY STATED THAT NO OFFICERS OF THE CONCERN RESIGNED.

New York, April 7.—Out of the fifty members of the board of directors of the Equitable Life Assurance society, thirty-eight assembled in the company's board room in the afternoon and, after an hour and thirty minutes of discussion, in the course of which it is understood the whole Equitable controversy was gone over, announcement was made that those present unanimously had decided to adopt the two-years' mutualization plan, announced several days ago.

Rumors of resignations did not bear fruit and it was authoritatively said that none was tendered.

"Everything harmonious" was the tenor of the official statement, issued after the meeting by Chauncey M. Depew and Cornelius N. Bliss. This announcement also said that a committee of directors would thoroughly investigate the company management.

President Alexander of the company and James H. Hyde were present, and it is notable that many of the directors came from a distance in order to attend the session.

During the day's meeting there were various rumors of a controversy between Mr. Hyde and Mr. Alexander, but so far as known, nothing of this kind took place.

President Alexander, Mr. Hyde and John D. Crimmins declined to add anything to the official statement and said they had no comments to make on the day's meeting.

Plan for Mutualization.

The plan for mutualization briefly provides that the terms of directors expiring Dec. 31, 1905, and Dec. 31, 1906, shall expire on the last day of December this year, their successors to be elected the first Wednesday in December, 1905; the terms expiring on the last day of December, 1907 and 1908, shall terminate Dec. 31, 1906, and their successors shall be elected the first Wednesday in December, 1906. There will be four classes of directors—those elected successors in the so-called 1905 class to serve three years; those in the 1906 class to hold office four years; those in the 1907 class to serve four years, and of the 1908 class to hold office five years. There will be thirteen directors in each class, six to be filled by stockholders and seven by policyholders.

There will be conferences with the state superintendent of insurance and with the policyholders' committee by a committee headed by Senator Depew, relative to filling the two existing vacancies in the directorate by the policyholders, these two men to be members of the executive committee. These conferences also will take up the appointment of two more members of the executive committee by C. N. Bliss. The conference will follow out the plan previously suggested as to the resignations of four of the present executive committee to make room for the new members.

A new feature in the Equitable matter is the resolution adopted for the appointment of a committee of seven, headed by E. H. Harriman, to thoroughly investigate Equitable affairs.

AFTER A MEMORABLE CONFLICT.

Democratic Candidate Elected Mayor of Huntington, W. Va.

Huntington, W. Va., April 7.—After a memorable conflict in which three men were shot, several badly beaten up by policemen and deputy sheriffs, and numerous county and city officials arrested and cast into jail, John W. Ensign, Dem., during the day was elected mayor of Huntington, having a majority of 48 votes over Hiram Gordon, Rep. The Democrats elected four councilmen, which with two holdovers and the mayor, gives them the control of the city affairs, the council itself being a tie, six to six. All the other Republican candidates were elected.

OWED ENGLISH INVESTORS.

Storey Cotton Company Heavily Indebted to Britons.

Philadelphia, April 7.—Examination of the books and papers of the defunct Storey Cotton company in the hands of Senator Bradley of Camden, N. J., receiver of the concern, has brought to light a report of F. K. Lambert, manager of the Liverpool branch of the company. On Dec. 21, 1904, Lambert reported that the company owed \$380,000 to English investors. There is no record of any part of this amount having been paid.

Ends His Life in the Surf.

Marblehead, Mass., April 7.—David K. Phillips, president of the National Grand bank, threw himself into the surf at Phillips Beach during the day and was drowned. Phillips is said to have recently worried much over business matters. Later events lead to the belief that Phillips was murdered, as his watch and money are missing.

MYSTERY STILL UNSOLVED.

San Francisco Police Baffled by Murder Case.

San Francisco, April 7.—The mystery of the young man whose dismembered trunk was found in Vallejo street Wednesday night has not been solved, notwithstanding that the best detectives in the city are working on the case and bloodhounds have been used. A wound in the portion of the neck attached to the body indicates that the young man was stabbed to death before being hacked to pieces. From the color of his skin he is supposed to have been an Italian. The fact that the head, arms and legs are missing makes identification difficult. The officers placed bloodhounds on the track of the blood leading from the place where the remains were deposited on the sidewalk by an unknown man, who is believed to have committed the crime. In a vacant house nearby it was found that the water in the kitchen had recently been running, but no other signs of occupancy were visible.

The bloodhounds ended their run at a house on Mason street on the steps of which were several drops of blood.

In the place, however, nothing incriminating was seen. The police have the authority that the murdered man was one of the witnesses in the Giuseppe Brocardo murder case, all of whom received warnings of death. Theories of the Mafia revenge have been advanced.

The head, arms and legs of the man were later found in a bag in the bay by two boys near Meigs' wharf.

THREE FATAL ACCIDENTS.

Two Others of a Serious Nature in One Day at Minneapolis.

Minneapolis, April 7.—Three fatal accidents and two persons injured seriously is the record of Minneapolis for one day.

Shortly after 5:30 p. m. A. F. Anderson was run down and killed by a Wisconsin Central train bound for St. Paul on the railroad tracks at Eleventh avenue southeast. Anderson was seventy-four years of age and deaf.

Warren Anderson, four years old, was killed shortly before noon by an interurban street car at the corner of Twentieth avenue south and Washington, while playing with other children.

Fred Conroy, fifteen years old, was struck by a Minnehaha car at 10 a. m. Conroy was returning to his home at 2743 Minnehaha avenue when he was run down. He was taken to the Swedish hospital and died with a few moments after his arrival.

John Gleason, a newspaper carrier, tried to board a switch engine at Fifth street and Twenty-second avenue northeast. He fell and the wheels fractured both of his legs. He is at the city hospital.

Max Labowitz, a bricklayer employed at the Boutell building at Fifth street and First avenue south, fell from the second story of the structure to the basement and fractured one leg and sustained other injuries.

BY ALMOST UNANIMOUS VOTE.

Joseph Smith Sustained as Prophet, Seer and Revelator.

Salt Lake City, Utah, April 7.—Joseph F. Smith was sustained as prophet, seer and revelator by almost unanimous vote of members of the Mormon church during the day at the opening session of the seventy-first annual convention. When the vote was taken to sustain the twelve apostles, two hands were raised in dissent. One of the dissenters arose to explain his vote, but was not permitted to speak. President Smith merely stating that he could present his objections to the proper authorities. The incident created a profound sensation.

The members who dissented stated afterwards that they desired to protest against sustaining such officers of the church as live in polygamy.

Among the apostles sustained were Apostles Taylor and Cowley. In his testimony, before the senate investigating committee at Washington Senator Smoot stated that an investigation was being made by the church in the charges that these two apostles had taken polygamous wives, since the manifesto and that if the charges were proven he would not vote to sustain Taylor and Cowley. Senator Smoot was not present nor were Apostles Taylor and Cowley.

ENEMY OF CONSUMPTION.

Tapeworm Destroys the Germ of the "White Plague."

Washington, April 7.—"The tapeworm is the natural enemy of the germ of consumption and the latter cannot exist when the other is present," says Consul Canada, at Vera Cruz, Mex., in a report just received at the state department. The consul states that two eminent scientists have discovered the tapeworm prevents the organism from being affected with tuberculosis bacilli and it has been proven in the case of a consumptive affected with tapeworm that he completely recovered his health. To establish the efficiency of this remedy the doctors injected a liquid prepared from the taeni into several consumptives which resulted in a complete cure.

Supposed Victim of Johann Hoch.

St. Louis, April 7.—Circuit Attorney Sager has requested the coroner to exhume the body of Mrs. Mary Schultz, alleged to have been the wife of Johann Hoch, who died here in 1892. It is alleged that Hoch under the name of Schultz was married to the woman here.

Calumet Baking Powder

The Standard of
Perfect Baking.

TELEGRAPHIC EREMITIES.

M. Charleson was hit by a Stillwater car in St. Paul Thursday and probably fatally injured.

Elias Powell, colored, was hanged Thursday at Texarkana, Ark., for the murder of J. C. Gardner, a white farmer.

Secretary Wilson of the department of agriculture will not go to Portland, Ore., to attend the goods roads convention.

Fire at White Bear, Minn., destroyed S. Berglund & Co.'s lumber mill and extensive yard, causing a loss of \$75,000.

The authorities of Knox college at Galesburg, Ill., announce a gift of \$50,000 by Andrew Carnegie to that institution for a new science building.

At Fayetteville, Ark., Walter Partridge, a negro, aged twenty, was hanged Thursday for a criminal assault upon Mrs. Lillie Hales, a white woman.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution as assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & Co., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

HARMONIOUS SESSION

BOARD OF DIRECTORS OF EQUITABLE LIFE ASSURANCE SOCIETY MEETS.

ADOPT MUTUALIZATION PLAN

AUTHORITATIVELY STATED THAT
NO OFFICERS OF THE CONCERN RESIGNED.

New York, April 7.—Out of the fifty members of the board of directors of the Equitable Life Assurance society, thirty-eight assembled in the company's board room in the afternoon and, after an hour and thirty minutes of discussion, in the course of which it is understood the whole Equitable controversy was gone over, announcement was made that those present unanimously had decided to adopt the two-years' mutualization plan, announced several days ago.

Rumors of resignations did not bear fruit and it was authoritatively said that none was tendered.

"Everything harmonious" was the tenor of the official statement, issued after the meeting by Chauncey M. Depew and Cornelius N. Bliss. This announcement also said that a committee of directors would thoroughly investigate the company management.

President Alexander of the company and James H. Hyde were present, and it is notable that many of the directors came from a distance in order to attend the session.

During the day's meeting there were various rumors of a controversy between Mr. Hyde and Mr. Alexander, but so far as known, nothing of this kind took place.

President Alexander, Mr. Hyde and John D. Crimmins declined to add anything to the official statement and said they had no comments to make on the day's meeting.

Plan for Mutualization.

The plan for mutualization briefly provides that the terms of directors expiring Dec. 31, 1905, and Dec. 31, 1906, shall expire on the last day of December this year, their successors to be elected the first Wednesday in December, 1905; the terms expiring on the last day of December, 1907 and 1908, shall terminate Dec. 31, 1906, and their successors shall be elected the first Wednesday in December, 1906. There will be four classes of directors—those elected successors in the so-called 1905 class to serve three years; those in the 1906 class to hold office four years; those in the 1907 class to serve four years, and of the 1908 class to hold office five years. There will be thirteen directors in each class, six to be filled by stockholders and seven by policyholders.

There will be conferences with the state superintendent of insurance and with the policyholders' committee by a committee headed by Senator Depew, relative to filling the two existing vacancies in the directorate by the policyholders, these two men to be members of the executive committee. These conferences also will take up the appointment of two more members of the executive committee by C. N. Bliss. The conference will follow out the plan previously suggested as to the resignations of four of the present executive committee to make room for the new members.

A new feature in the Equitable matter is the resolution adopted for the appointment of a committee of seven, headed by E. H. Harriman, to thoroughly investigate Equitable affairs.

AFTER A MEMORABLE CONFLICT.

Democratic Candidate Elected Mayor of Huntington, W. Va.

Huntington, W. Va., April 7.—After a memorable conflict in which three men were shot, several badly beaten up by policemen and deputy sheriffs, and numerous county and city officials arrested and cast into jail, John W. Ensign, Dem., during the day was elected mayor of Huntington, having a majority of 48 votes over Hiram Gordon, Rep. The Democrats elected four councilmen, which with two holdovers and the mayor, gives them the control of the city affairs, the council itself being a tie, six to six. All the other Republican candidates were elected.

OWED ENGLISH INVESTORS.

Storey Cotton Company Heavily Indebted to Britons.

Philadelphia, April 7.—Examination of the books and papers of the defunct Storey Cotton company in the hands of Senator Bradley of Camden, N. J., receiver of the concern, has brought to light a report of F. K. Lambert, manager of the Liverpool branch of the company. On Dec. 31, 1904, Lambert reported that the company owed \$380,000 to English investors. There is no record of any part of this amount having been paid.

Ends His Life in the Surf.

Marblehead, Mass., April 7.—David K. Phillips, president of the National Grand bank, threw himself into the surf at Phillips Beach during the day and was drowned. Phillips is said to have recently worried much over business matters. Later events lead to the belief that Phillips was murdered, as his watch and money are missing.

MYSTERY STILL UNSOLVED.

San Francisco Police Baffled by Murder Case.

San Francisco, April 7.—The mystery of the young man whose dismembered trunk was found in Vallejo street Wednesday night has not been solved, notwithstanding that the best detectives in the city are working on the case and bloodhounds have been used. A wound in the portion of the neck attached to the body indicates that the young man was stabbed to death before being hacked to pieces. From the color of his skin he is supposed to have been an Italian. The fact that the head, arms and legs are missing makes identification difficult. The officers placed bloodhounds on the track of the blood leading from the place where the remains were deposited on the sidewalk by an unknown man, who is believed to have committed the crime. In a vacant house nearby it was found that the water in the kitchen had recently been running, but no other signs of occupancy were visible.

The bloodhounds ended their run at a house on Mason street on the steps of which were several drops of blood.

In the place, however, nothing incriminating was seen. The police have the authority that the murdered man was one of the witnesses in the Giuseppe Brogardo murder case, all of whom received warnings of death. Theories of the Mafia revenge have been advanced.

The head, arms and legs of the man were later found in a bag in the bay by two boys near Meigs' wharf.

THREE FATAL ACCIDENTS.

Two Others of a Serious Nature in One Day at Minneapolis.

Minneapolis, April 7.—Three fatal accidents and two persons injured seriously is the record of Minneapolis for one day.

Shortly after 5:30 p. m. A. F. Anderson was run down and killed by a Wisconsin Central train bound for St. Paul on the railroad tracks at Eleventh avenue southeast. Anderson was seventy-four years of age and deaf.

Warren Anderson, four years old, was killed shortly before noon by an interurban street car at the corner of Twentieth avenue south and Washington, while playing with other children.

Fred Conroy, fifteen years old, was struck by a Minnehaha car at 10 a. m. Conroy was returning to his home at 2743 Minnehaha avenue when he was run down. He was taken to the Swedish hospital and died with a few moments after his arrival.

John Gleason, a newspaper carrier, tried to board a switch engine at Fifth street and Twenty-second avenue northeast. He fell and the wheels fractured both of his legs. He is at the city hospital.

Max Liebowitz, a bricklayer employed at the Boutell building at Fifth street and First avenue south, fell from the second story of the structure to the basement and fractured one leg and sustained other injuries.

BY ALMOST UNANIMOUS VOTE.

Joseph Smith Sustained as Prophet, Seer and Revelator.

Salt Lake City, Utah, April 7.—Joseph F. Smith was sustained as prophet, seer and revelator by almost unanimous vote of members of the Mormon church during the day at the opening session of the seventy-first annual convention. When the vote was taken to sustain the twelve apostles, two hands were raised in dissent. One of the dissenters arose to explain his vote, but was not permitted to speak. President Smith merely stating that he could present his objections to the proper authorities. The incident created a profound sensation.

The members who dissented stated afterwards that they desired to protest against sustaining such officers of the church as live in polygamy.

Among the apostles sustained were Apostles Taylor and Cowley. In his testimony, before the senate investigating committee at Washington Senator Smoot stated that an investigation was being made by the church into the charges that these two apostles had taken polygamous wives, since the manifesto and that if the charges were proven he would not vote to sustain Taylor and Cowley. Senator Smoot was not present nor were Apostles Taylor and Cowley.

ENEMY OF CONSUMPTION.

Tapeworm Destroys the Germ of the "White Plague."

Washington, April 7.—"The tapeworm is the natural enemy of the germ of consumption and the latter cannot exist when the other is present," says Consul Canada, at Vera Cruz, Mex., in a report just received at the state department. The consul states that two eminent scientists have discovered the tapeworm prevents the organism from being affected with tuberculosis bacilli and it has been proven in the case of a consumptive affected with tapeworm that he completely recovered his health. To establish the efficiency of this remedy the doctors injected a liquid prepared from the taeni into several consumptives which resulted in a complete cure.

Supposed Victim of Johann Hoch.

St. Louis, April 7.—Circuit Attorney Sager has requested the coroner to exhume the body of Mrs. Mary Schultz, alleged to have been the wife of Johann Hoch, who died here in 1892. It is alleged that Hoch under the name of Schultz was married to the woman here.

TELEGRAPHIC EREVITIES.

M. Charleson was hit by a Stillwater car in St. Paul Thursday and probably fatally injured.

Elias Powell, colored, was hanged Thursday at Texarkana, Ark., for the murder of J. C. Gardner, a white farmer.

Secretary Wilson of the department of agriculture will not go to Portland, Ore., to attend the goods roads convention.

Fire at White Bear, Minn., destroyed S. Berglund & Co.'s lumber mill and extensive yard, causing a loss of \$75,000.

The authorities of Knox college at Galesburg, Ill., announce a gift of \$50,000 by Andrew Carnegie to that institution for a new science building.

At Fayetteville, Ark., Walter Partridge, a negro, aged twenty, was hanged Thursday for a criminal assault upon Mrs. Lillie Hales, a white woman.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution as assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & Co., Toledo, O. Sold by all Druggists, etc.

Take Hall's Family Pills for constipation.
